

Activity Pricing

Table of Contents

1. Changing Activity Pricing	2
2. One-Off Date Activity Pricing	9
3. Setting Weekend Activity Pricing	11

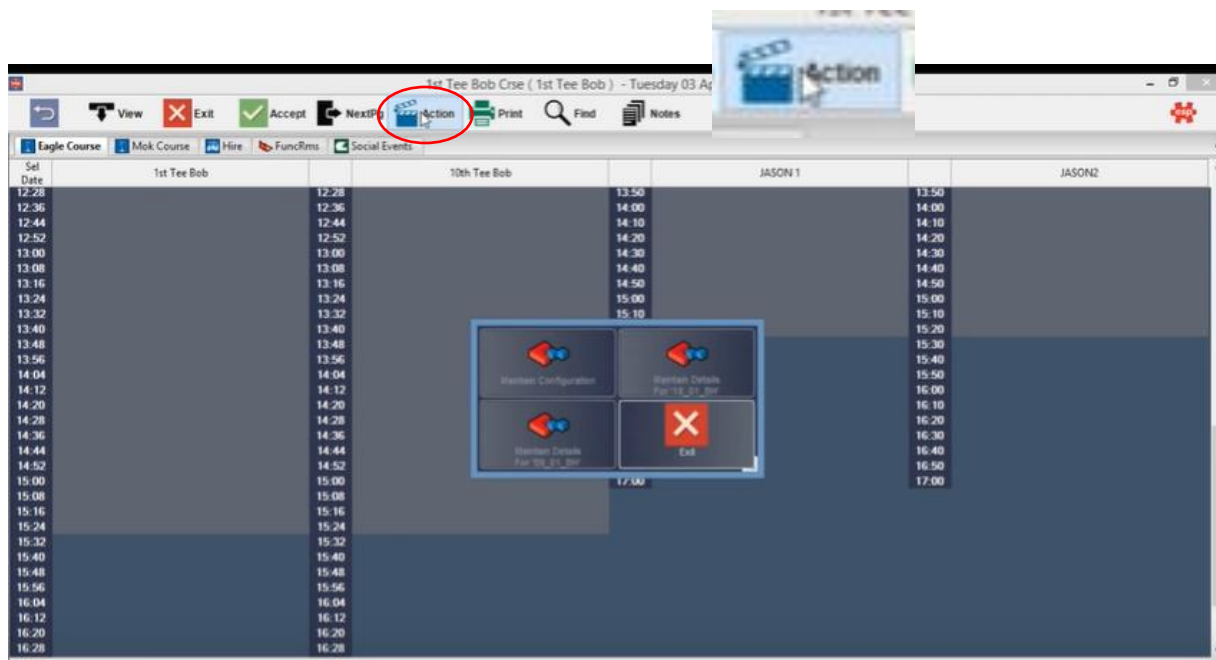

This ESP guide will tell you how to change pricing. This may be for an event, selected activity or day of the month or permanent.

1. Changing Activity Pricing

From the ESP desktop **select** the booking diary icon. Then select any option from the list.

Now once in the booking screen, press F7 or **select** action from the top toolbar.

Then select 'maintain configuration' from the menu

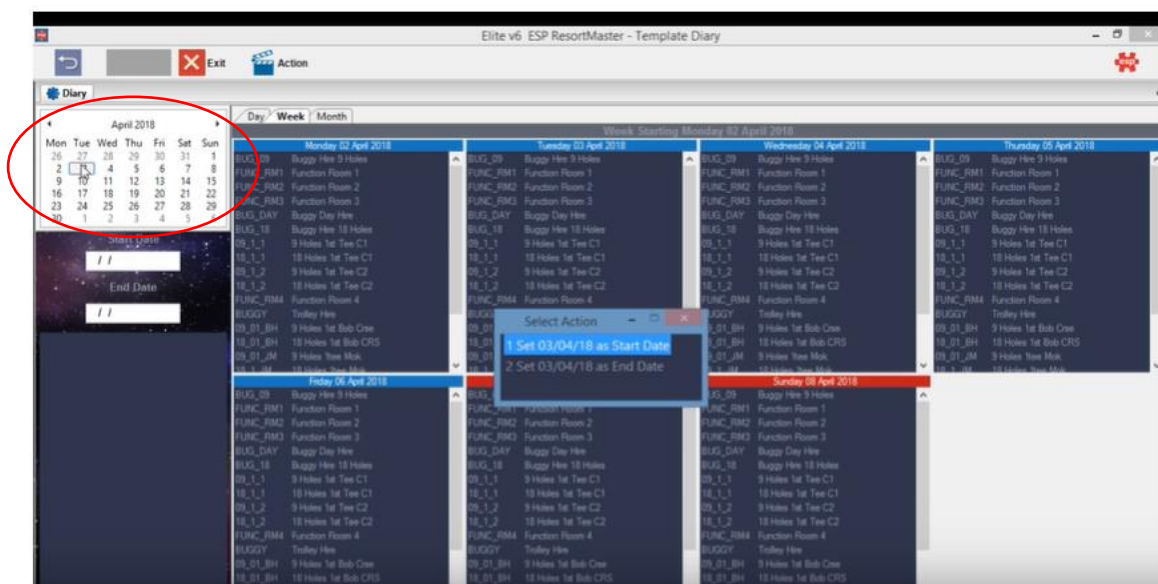

Now from the new menu, select 'maintain calendar'

This will bring you to the calendar page.

The first thing you will need to do is **select** the period you wish to price the activity for.

You can enter the start date manually in the start date field or use the calendar and double click the start date.

From the box on the screen, select 'set as start date'.

Now follow the same process to set the end date for the pricing structure.

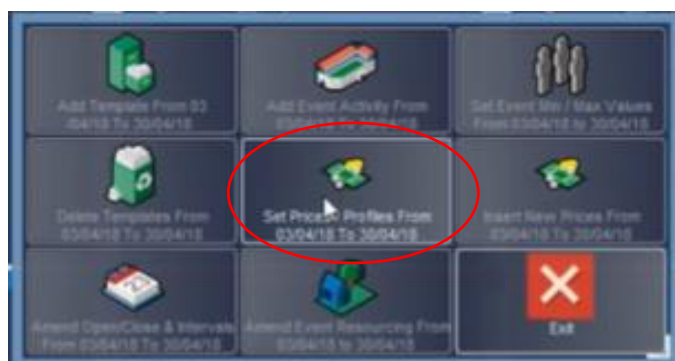

Although we enter the end date, the pricing structure will continue after the end date if no other pricing structure is put in place for after this period.

Once you have done this press F7 again or select action from the toolbar.

There will then be some options that appear on the screen

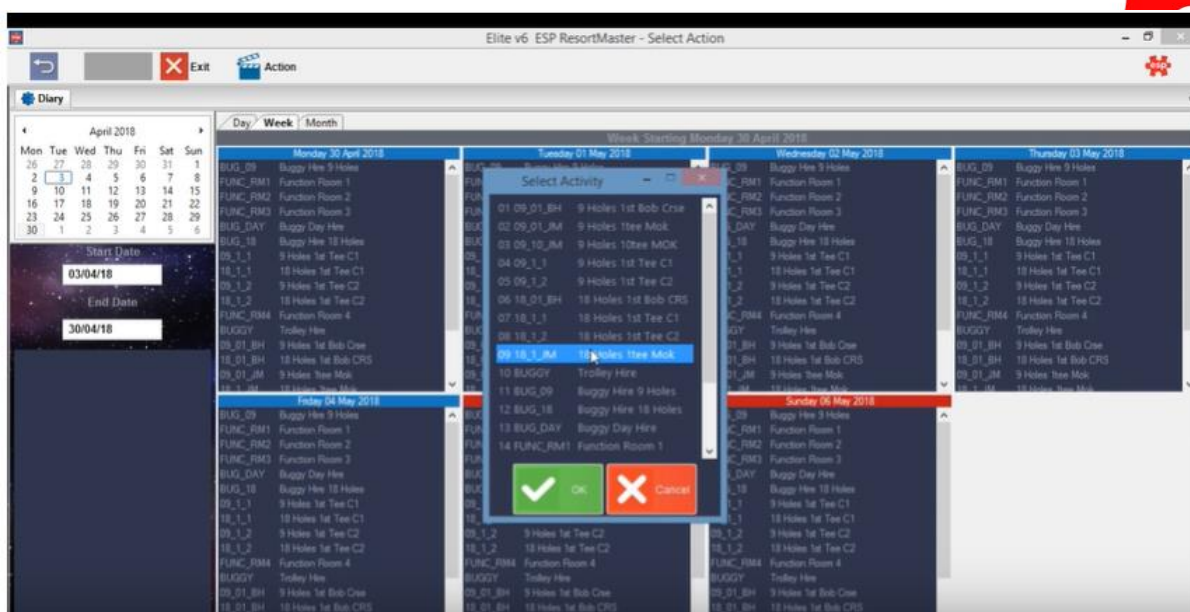

You are then going to select the 'set prices and profiles from [dates you have selected]' button.

From the pop-up box, select the activity you wish to price

This will now bring you to the pricing matrix scheme

On the top line will be the activity code and the description.

The lines underneath show the days of the week. You can **select** and **deselect** the days of the week you don't want the scheduled pricing to be running on by clicking in the green box next to each day.

The green tick means they are **selected** and the pricing will apply.

The times we enter are the times we wish to end the pricing band - not to start the pricing band.
ESP will automatically assume the pricing band starts at 1 minute past midnight.

A screenshot of the ESP pricing configuration interface. At the top, the 'Activity Code' is '18_01_BH' and the 'Description' is '18 Holes 1st Bob CRS'. Below this, there are checkboxes for each day of the week, all of which are checked. The main part of the interface is a grid with 10 columns representing pricing bands from Band 0 to Band 9. Each band has two input fields: 'Type' and 'Alloc'. All 'Alloc' fields are currently set to '0 %'.

In this instance we will price in 3 bands. Always enter the last band at 23:59 as this will ensure the correct charges are applied up until the end of the day. It is also good practice to end the band 1 minute prior to when you want the new band to start.

A screenshot of the ESP pricing configuration interface, similar to the one above. The 'Activity Code' is '18_01_BH' and the 'Description' is '18 Holes 1st Bob CRS'. The checkboxes for days of the week are: Monday (checked), Tuesday (checked), Wednesday (checked), Thursday (checked), Friday (checked), Saturday (unchecked), and Sunday (unchecked). In the pricing bands grid, Band 0 has '11:59' in the 'Type' field, Band 1 has '15:59', and Band 2 has '23:59'. Band 3 is highlighted in yellow. All 'Alloc' fields are set to '0 %'.

Now we've completed with the timings, we now need to enter the price types.

In the matrix click the top box in the left-hand column.

Always **select** the visitor as the first pricing band as this will apply to your RACK rate.

Activity Code	18_01_BH		Description		18 Holes 1st Bob CRS								
Monday	<input checked="" type="checkbox"/>	Tuesday	<input checked="" type="checkbox"/>	Wednesday	<input checked="" type="checkbox"/>	Thursday	<input checked="" type="checkbox"/>	Friday	<input checked="" type="checkbox"/>	Saturday	<input type="checkbox"/>	Sunday	<input type="checkbox"/>
Type	Band 0	Band 1	Band 2	Band 3	Band 4	Band 5	Band 6	Band 7	Band 8	Band 9			
Alloc	11.59 0 %	15.59 0 %	23.59 0 %	: 0 %	: 0 %	: 0 %	: 0 %	: 0 %	: 0 %	: 0 %

JNR 7 D	0.00	0.00	0.00	0.00	0.00	0.00	0.00	0.00	0.00	0.00

Now **select** the rest of the price types you wish to include.

If you don't include a price type the computer will automatically revert to visitor pricing when the customer is identified.

If you wish to set these prices, then **select yes**.

If you wish to add more pricing structures for this period, then you can do the same process as above. If you don't have any more to add, then press cancel when the drop-down box appears. If you are finished and have no more to add navigate back to the desktop

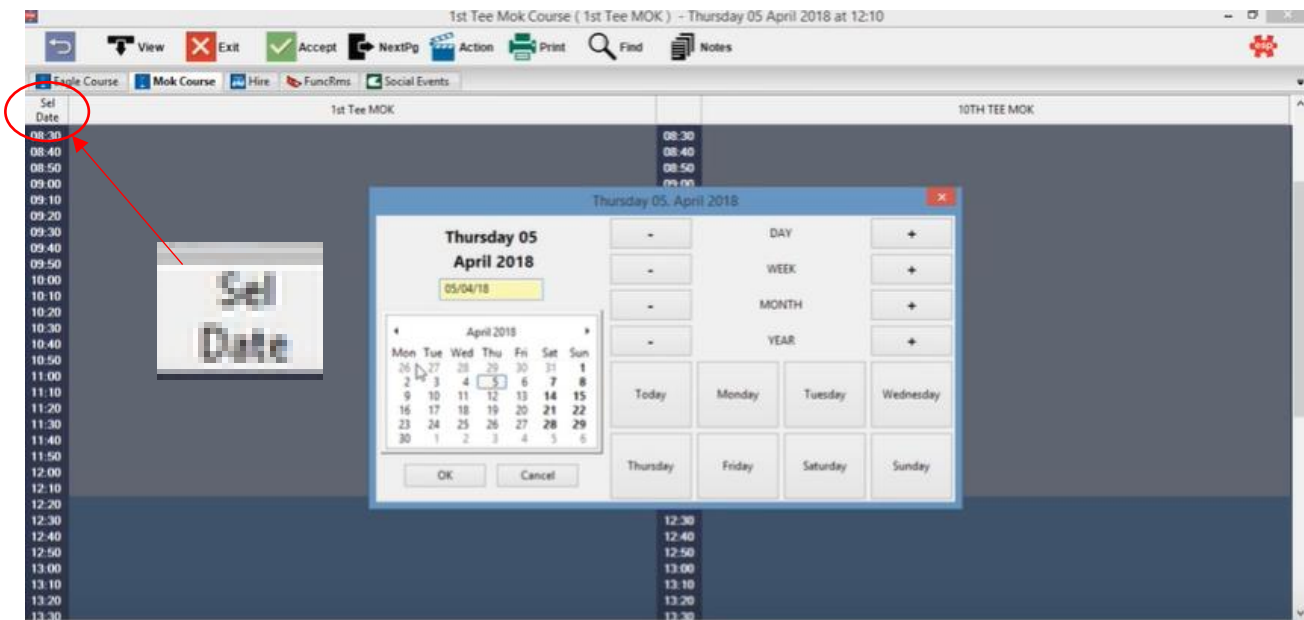

2. One-Off Date Activity Pricing

From the ESP desktop **select** the booking diary icon. Then select the activity you want to change the pricing for.

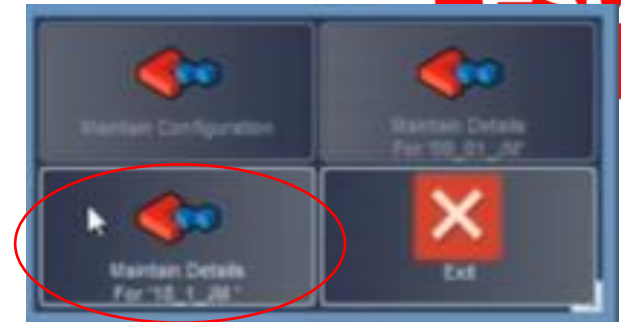

Once on this page, **select** 'sel date' and select the date you wish to change the pricing structure for.

Once the date is selected, **select** the activity you wish to change the pricing structure for. Now press F7 or action.

Then **select** maintain details

Then **select** the activity pricing option

This will now bring up the current prices, price types and time bands set.

Amend to suit all your requirements. Once you have done this, exit and this will automatically save your amendments.

Activity Code	18_1_JM	Date	07/05/18	Band 0	Band 1	Band 2	Band 3	Band 4	Band 5	Band 6	Band 7	Band 8	Band 9

Alloc				0 %	0 %	0 %	0 %	0 %	0 %	0 %	0 %	0 %	0 %
Visitor	45.00	45	12.00	0.00	0.00	0.00	0.00	0.00	0.00	0.00	0.00	0.00	0.00
7 Day	0.00	0.00	0.00	0.00	0.00	0.00	0.00	0.00	0.00	0.00	0.00	0.00	0.00
5 Day	0.00	0.00	0.00	0.00	0.00	0.00	0.00	0.00	0.00	0.00	0.00	0.00	0.00
SNR 5 D	0.00	0.00	0.00	0.00	0.00	0.00	0.00	0.00	0.00	0.00	0.00	0.00	0.00
Guest	25.00	20.00	12.00	0.00	0.00	0.00	0.00	0.00	0.00	0.00	0.00	0.00	0.00

This will now take you back to the booking page. The pricing has only changed for this chosen activity on this chosen date. Now **select** exit in the top right corner of the screen to go back to the main ESP desktop.

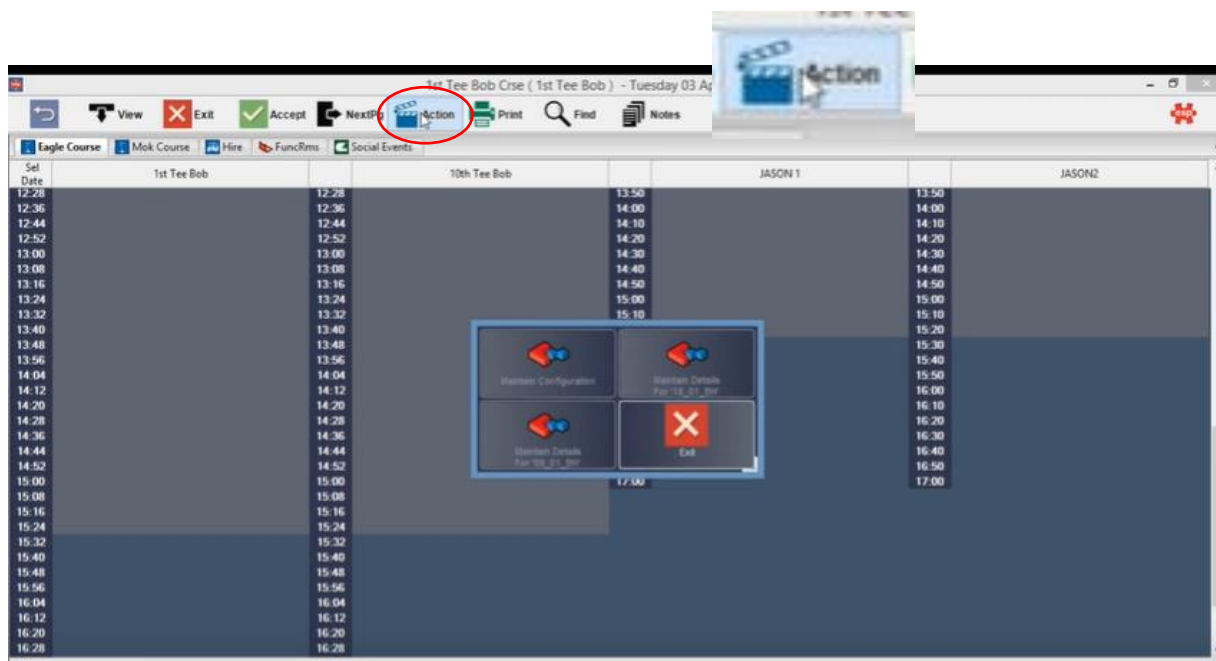

3. Setting Weekend Activity Pricing

From the ESP desktop **select** the booking diary icon. Then select any option from the list

Now once in the booking screen, press F7 or **select** action from the top toolbar.

Then select 'maintain configuration' from the menu

Now from the new menu, select 'maintain calendar'

This will bring you to the calendar page.

The first thing you will need to do is **select** the period you wish to price the activity for.

You can enter the start date manually in the start date field or use the calendar and double click the start date.

From the box on the screen, select 'set as start date'.

Now follow the same process to set the end date for the pricing structure.

Although we enter the end date, the pricing structure will continue after the end date if no other pricing structure is put in place for after this period.

Once you have done this press F7 again or select action from the toolbar.

There will then be some options that appear on the screen

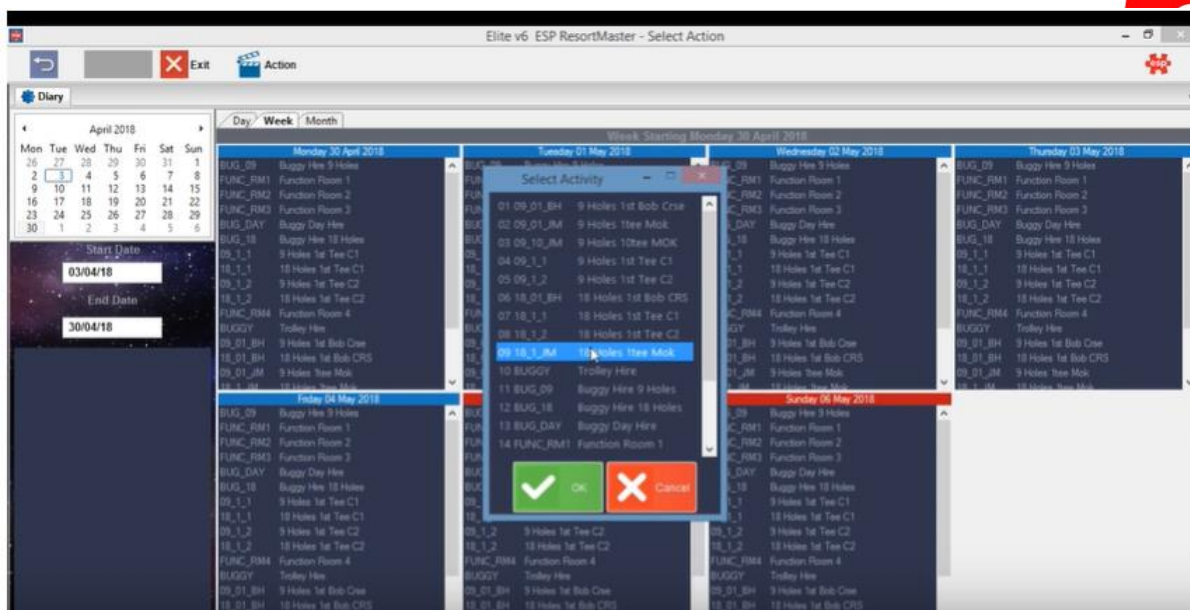

You are then going to select the 'set prices and profiles from [dates you have selected]' button.

From the pop-up box, select the activity you wish to price

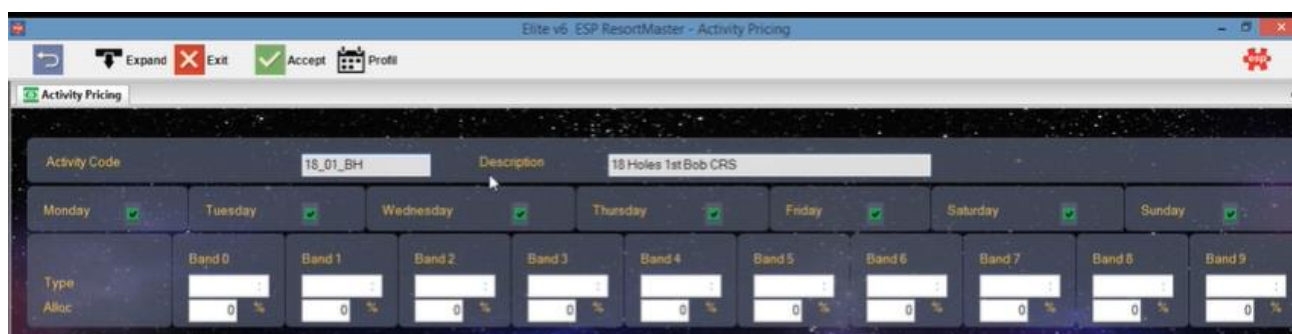

This will now bring you to the pricing matrix scheme

On the top line will be the activity code and the description.

The lines underneath show the days of the week. You can **select** and **deselect** the days of the week you don't want the scheduled pricing to be running on by clicking in the green box next to each day.

The green tick means they are selected, and the pricing will apply.

If doing weekend pricing, you will want to deselect the weekdays as such below.

You then need to set the times as we did earlier and set all the types.
